

Fighting for Purity in a Culture that Doesn't

1. Help parents and students understand the “why” of purity.

2. Identify what the tools of the enemy are and be willing to call them out.

3. We must learn to illustrate the effects of sin and the result of true freedom.

4. Create a culture of confession
for your ministry.

5. Remind your parents they are the primary influencers in their child's purity journey.
